

DIGITAL CAREER PROGRAM VOLUNTEERS WANTED

Teach the Talents of Tomorrow

The goal of this program is to prepare our students with practical skills that will support them get an entry level job in the tech industry after successfully graduating.

WE ARE LOOKING FOR

TO TEACH IN ENGLISH...

HOW MANY

FRONTEND DEVELOPERS
On a mission

HTML/CSS and JS

4

Skills and mindset:

- Impact is one of your values
- You want to join a community of like-minded techies
- You remember your first steps as a frontend developer & want to pass the insights
- Passion for sharing knowledge and skills; patience & openness
- Strong interest in project/challenged based learning
- Teamwork skills and tech skills within the area you are teaching

Responsibilities:

- Attend briefing & planning sessions with other volunteers
- Teach to a group of up to 8-10 learners
- Explain concepts and challenges in a simple language
- Take responsibility for the progress of the class & engagement level
- Contribute to the curriculum planning and course creation
- Coordinate with your teaching team and work flexibly

Some facts:

- You never teach alone - each teaching team has 5-7 members
- Courses run 2 times/week, but you will rotate with your colleagues
- Hybrid courses, that take place online and from the ReDI Campus
- Courses are during the week, in the late evening (usually between 7-9 PM)
- You and your team will have one month to prepare for your volunteer experience
- Our courses are in English
- As a volunteer teacher, you participate in the selection of the students before semester kick-off

Are you ready to join as a volunteer at ReDI School?

Your technical skills and the mindset of a change-maker are your most valuable asset!

The Autumn semester starts on 13.09.21 and ends on 17.12.2021 No classes on official holidays) Time commitment: 4-6 hrs/week

If you're interested, please contact Yoana: yoana@redi-school.org
