

# JOIN OUR TEAM!

## TECH EDUCATION LEAD YOUTH (MÜNCHEN)

<b>STARTING DATE</b>	March 2021
<b>CONTRACT</b>	25-30hrs/week
<b>LOCATION</b>	München
<b>DURATION</b>	Limited contract (1 year, potential to be increased up to 3 years)

### ABOUT YOU:

- Experience working in the **tech industry** and with **programming** (min 2 years)
- Experience in the (youth) **education sector** ideally with teaching programming or other technical curricular
- Solid **project management** and **organizational skills**
- **Team player** with excellent people skills
- Fluent in **German** and **English**
- Flexibility to adapt to **fast-changing** situations
- Experience working in **multicultural** contexts
- Availability to work during the **weekends**.

### ABOUT US:

- Use tech to connect **human potential** and **opportunity** with **dignity** and **humility**
- Focus on providing students with **useful skills**, appreciated by the tech industry and academia, to support their accelerated integration
- Lots of **heart** and a fast-paced opportunity-driven **non-profit**, aiming for big, measurable impact
- **Community driven** and co-creative approach to social innovation
- Born in Berlin to make a difference Germany wide → EU wide → **worldwide**
- Front and center in the **refugee conversation** with close contacts to thought leaders from business, government, civil society, and academia
- **Reliable, helpful, caring, and playful**: are our organizational values.
- The **ReDI Youth Program** in Munich is funded by the Bavarian government and a foundation to scale impact Munich and Bavaria wide

### ABOUT THE ROLE:

- Build and co-develop the ReDI Youth Program for **marginalized Youth** between the ages of 10 and 18 years
- Research, plan and prepare various tech **curricular** and **methodologies** aimed at a playful and attractive learning experience for diverse participants out of different age groups
- **Recruiting, training** and **coordination** onsite of volunteer trainers (mainly for Baycode)
- Collaborate with partners on **corporate volunteering** and **adjust** corporate curriculum to our format and target group
- Define and help set up needed **hardware** and **software**
- **Quality control, evaluation, and improvement** of curriculum and course structure
- **Program coordination** support (logistics, participants management, marketing, Partner reporting, and collaboration...).
- Support as **trainer** onsite

### Now let's start the conversation:
